Job Description

As the Electronic Security General Manager, you will be responsible for overseeing all aspects of our electronic security operations. Your primary objective will be to ensure the safety and protection of our clients' assets, properties, and personnel managing financial and operational effectiveness. Provide leadership in managing staff and consultants.

On the Job

As an Electronic Security General Manager, the day-to-day job responsibilities include:

- Responsibility for overseeing all aspects of electronic security operations within the organisation.
- Developing and implement strategic plans and objectives to ensure effective security measures are in place.
- Managing a team of security professionals, including hiring, training, and performance evaluation.
- Collaborating with other departments to assess security risks and develop appropriate mitigation strategies.
- Monitoring and analysing security incidents, trends, and emerging threats to proactively identify vulnerabilities and recommend improvements.
- Staying up to date with advancements in electronic security technology and best practices to enhance the organisation's security posture.
- Coordinating with external vendors and contractors for the procurement, installation, and maintenance of security systems and equipment.
- Developing and manage the security budget, ensuring optimal resource allocation and cost-effectiveness.
- Serving as a liaison with law enforcement agencies, government officials, and other relevant stakeholders to address security concerns and maintain a secure environment.

Salary & Benefits

Your starting salary can vary because of factors like level of experience, training, or location. Your salary as an Electronic Security General Manager may increase over time as you build skills, knowledge and experience.

Weekly Pay: $2,700 – $3,400

Annual Pay: $140,000 – $180,000

Hours per week: 38

Hourly Pay: $70.00 – $90.00

ASIAL

Entry Qualifications & Training
