

# You know you need to lift your AI capability, but not sure where to start? **THIS IS YOUR ROADMAP**

Powered by **E L M O** Software!

**Staying current with Artificial Intelligence is no longer optional; it is essential to protecting your security organisation's relevance and competitiveness.**

The pace of change is accelerating, and your team needs practical, trusted guidance to use AI confidently, securely and responsibly.

This five-course **AI Governance and Capability eLearning bundle** delivers exactly that.

Each module builds a critical capability, from effective prompting and strategic adoption to data security, safety standards and ethical business writing. Individually, they strengthen day-to-day performance. Together, they create a structured pathway that positions your organisation to lead, not lag.

Valued at \$245 and now available for a special introductory member price of \$149, a saving of \$96, this bundle is a cost-effective way to future-proof your workforce and demonstrate proactive leadership in an AI-driven world.
