

SET YOUR TEAM UP FOR SUCCESS

with industry-tailored, online training

ASIAL eLearning Courses

Powered by **ELMO** Software!

Continuing professional development of staff is crucial for enhancing skills, boosting productivity and ensuring compliance. Benefits include improved performance, employee satisfaction and reduced turnover – but who offers a recognised, cost-effective, flexible solution? ASIAL does.

Exclusive to members, the ASIAL eLearning platform, powered by global HR software provider ELMO, provides 24/7 access to quality self-paced learning to meet your employees' needs.

The combination of interactive and video presentations provides a game-changing learning experience that will propel your organisation to success.

The comprehensive cloud-based solution is designed to streamline training processes for businesses of all sizes.

Available Courses

Curated for the security industry, there are 200 online tutorial courses (which include 50+ highly engaging video courses) to choose from.

The broad range of short courses has been designed to complement your existing professional development activities whilst providing access to training that meets your employees' needs. Priced competitively, these cost effective courses are available exclusively to ASIAL members. Please note: The courses provided are not part of any competencies or security licensing.

About the courses

From the date of purchase, each user has 3 months to complete the purchased course/s. Each course takes between 15–45 minutes to complete, followed by a quiz of 10 randomised questions.

A mark of 80% is required to attain a pass. Upon successful completion of the course, a certificate of completion will be emailed directly to the participant.

Our courses are designed to be completed on a PC (desktop, laptop). If however your teams are out in the field and unable to complete them on a PC, prior to purchase please contact us at elearning@asial.com.au to check the availability of a mobile version.
