

Certis Security Australia announces partnership with Gold Coast Turf Club

New cooperation expands commitment and investment in Queensland market

Queensland, Australia, 17 February 2022 – [Certis Security Australia](#) continues to extend its footprint in Queensland following the recent award of security contracts for both the Gold Coast Turf Club and Southern Cross University.

The partnership with Gold Coast Turf Club, which coincides with the venue's \$38 million redevelopment, will see Certis Security deploy security personnel at the race meetings and special events at Gold Coast Turf Club, Beaudesert Race Club and special events at the Gold Coast Event Centre.

"Gold Coast Turf Club is not just a racecourse, but a celebrated venue visited by many from across Australia for corporate and private functions. We are excited to be chosen as partners on the journey to night racing with the planned redevelopment," said Steve Crews, State Manager, Protective Services Queensland at Certis Security Australia.

"This partnership emphasises our commitment and investment into Queensland, following last year's relaunch of our Queensland office and new partnerships with key customers, including Sunshine Coast Airport, Southern Cross University and other major national brands."

"After undergoing a rigorous selection process, Certis Security Australia came out on top as being the best fit for our venue," said Steve Lines, CEO at Gold Coast Turf Club. "When visiting Gold Coast Turf Club, patrons expect a certain level to their experience, which is something Certis Security Australia is committed to delivering through a combination of people skills and technology. Possessing such a rich and deep history in the Australian market, the organisation understands the role it plays in ensuring visitors have a great time, which was critical in our decision to appoint Certis Security Australia. They are strongly aligned with our community values and their delivery to date has been perfectly aligned to our service proposition."

Certis Security Australia and the Gold Coast Turf Club are united in their commitment to ensuring the safety and enjoyment of all visitors to the iconic Queensland venue.
